#### **ABOUT US**

Our family-owned journey began in September 2009 manufacturing a couple of aluminum glass kitchen doors in a humble one-car garage. As our ambitions evolved, we ventured beyond the ordinary, shifting our focus to designing and manufacturing custom cabinet doors. This transition became a passion, a challenge that fueled our transformation throughout the years.

Today, **HRX Glass** stands proudly as South Florida's foremost aluminum and glass cabinet and closet door manufacturer, earning recognition across America. Working with the highest quality aluminums from Europe, we lead the market in design, innovation, quality, and support. Our clientele now includes top designers, architects, carpenters, and contractors.

The invaluable lesson we have learned is that good ideas know no boundaries. Our dedicated workforce is committed to **HRX Glass's** mission: delivering the best customer experience, from the inception of ideas to the moment a satisfied smile graces our customer's face.
